

# IKUS CATERING

## ANOTHER BEST DAY—AT WORK

Work is essential to a person’s dignity, not to mention their economic self-sufficiency. Through our Supported Employment program, IKUS Catering helps individuals with disabilities train for and obtain gainful employment in the culinary field or related fields.

## ACHIEVING VOCATIONAL SUCCESS

The Supported Employment program is designed to help individuals with disabilities achieve their dream of being gainfully employed. This program is geared toward individuals who are ready to be employed in a community workforce setting but may need assistance in areas of job creation, interviewing techniques, and social workplace skills.

The program has a low staff-to-client ratio in order to provide individual jobsite creation training and retention assistance. Some training will occur at Indian Trails Camp, but the majority of the program will be held at various community workforce settings.

IKUS Catering provides employment and on-the-job training for people with disabilities; creating opportunities to achieve greater independence, choice and control.

IKUS Catering staff have on-the-job training in sustainability, food preparation, food hygiene and serving meals. They work as part of an enthusiastic team, producing fresh high-quality food for events such as board meetings, corporate lunches and outings.

## FAST FACTS:

Adults ages 18 and up who are able to work independently
